BACKGROUND / KEY ISSUES / CONTRIBUTING FACTORS:

The applicant, Tir Na Draiochta Properties, LLC, is requesting a zone change from M-1/M-2 (Industrial Standard) to C-3 (Commercial High Intensity) for property 0.7494 +/- acres in size located at 250 N. Telshor Boulevard. The subject property currently contains a building that was previously used as a welding supply store. The zone change will allow the use of a furniture store in the existing building on the subject property.

The subject property is located along N. Telshor Boulevard. The Metropolitan Planning Organization (MPO) has classified N. Telshor Boulevard as a Minor Arterial roadway. The property has access to N. Telshor Boulevard through an ingress and egress point located on the southern portion of the property and a shared driveway north on the subject property. A bus shelter is located approximately 400 feet north of the subject property along N. Telshor Boulevard. There are no trails present within the general area.

The property contains some existing improved parking. The 2001 Zoning Code, as amended, requires furniture stores to provide one (1) parking stall per 500-600 square feet of gross floor area. Therefore, based on the gross floor area of the existing building a range of 12 to 15 parking spaces are required to facilitate the use as a furniture store. Two (2) of the parking stalls will be required to be Americans with Disability Act (ADA) compliant. The applicant will also be required to provide one (1) bicycle parking stall on the subject property.

The building was originally constructed in 1990. In 2002, an addition was permitted and constructed to the original building making its current gross floor area of 7,585 square feet. During this time the property was required to come into compliance with the 2001 Zoning Code, as amended, for parking and landscaping. The subject property has some mature landscaping including trees and shrubs. The property has ground cover (i.e. grass) along the majority of the southern portion of the property where the existing retention pond is located. The property also has some existing landscaping along the street frontage of N. Telshor Boulevard. The subject property is in compliance with the required 15% landscaping required on the subject property.

The property is bordered to the north and west by property zoned M-1/M-2 (Industrial Standard) and to the south by property zoned C-3C (Commercial High Intensity – Conditional). Therefore, between land uses no additional buffering (screening) is required. The property is also bordered to the east by a major thoroughfare (N. Telshor Boulevard). No additional screening is required along this property line either.

On October 27, 2009, the Planning and Zoning Commission recommended approval without conditions for the zone change by a vote of 4-0-0 (two Commissioners absent). No public discussion took place for the proposed zone change.

DATE: October 27, 2009

SUBJECT: 250 N. Telshor Blvd. (Zone Change)

RECOMMENDATION: Approval – without conditions for zone change (Case Z2802)

Case Z2802: A request for a zone change from M-1/M-2 (Industrial Standard) to C-3 (Commercial High Intensity) for 0.7494 +/- acres located at 250 N. Telshor. The purpose of the zone change is to allow the use of a furniture store. Submitted by property owner Scott H. Achen, Tir Na Draiochta Properties, LLC.

BACKGROUND

The applicant, Tir Na Draiochta Properties, LLC, is requesting a zone change from M-1/M-2 (Industrial Standard) to C-3 (Commercial High Intensity) for property 0.7494 +/- acres in size located at 250 N. Telshor Blvd. The subject property currently contains a building that was previously used as a welding supply store. The zone change will allow the use of a furniture store in the existing building on the subject property. The building was originally constructed in 1990. In 2002 an addition was permitted and constructed to the original building making its current gross floor area of 7585 square feet. During this time the property was required to come into compliance with the 2001 Zoning Code, as amended, for parking and landscaping.

The subject property is located along N. Telshor Boulevard. The Metropolitan Planning Organization (MPO) has classified N. Telshor Boulevard as a Minor Arterial roadway. The property has access to N. Telshor Boulevard through an ingress and egress located on the southern portion of the property and a shared driveway north on the subject property. A bus shelter is located approximately 400 feet north of the subject property along N. Telshor Boulevard. There are no trails present within the general area.

PARKING

The property contains some existing improved parking. The 2001 Zoning Code, as amended, requires furniture stores to provide one (1) parking stall per 500-600 square feet of gross floor area. Therefore, based on the gross floor area of the existing building a range of 12 to 15 parking spaces are required to facilitate the use of a furniture store.

Two (2) of the parking stalls will be required to be Americans with Disability Act (ADA) compliant. The applicant will also be required to provide one (1) bicycle parking stall on the subject property.

LANDSCAPING AND SCREENING

The City of Las Cruces Design Standards requires additions or structural modifications to existing buildings with a value of \$25,000.00 or over to provide landscaping. The parking area determines the amount of landscaping required for the site. A minimum area equal to 15 percent of the total parking area shall be landscaped. For the purpose of landscaping compliance, the parking area includes the entire tract of land except for the building pad and fenced-in storage area.

The subject property has some mature landscaping including trees and shrubs. The property has ground cover (i.e. grass) along the majority of the southern portion of the property where the existing retention pond is located. The property also has some existing landscaping along the street frontage of N. Telshor Boulevard. The subject property is in compliance with the required 15% landscaping required on the subject property.

The property is bordered to the north and west by property zoned M-1/M-2 (Industrial Standard) and to the south by property zoned C-3C (Commercial High Intensity – Conditional). Therefore, only the regular setbacks are required from these boundaries and additional buffering (screening) is not required. The property is also bordered to the east by a major thoroughfare (N. Telshor Boulevard). No additional screening is required along this property line either.
