BACKGROUND / KEY ISSUES / CONTRIBUTING FACTORS:

During the May 17, 2010 City Council Meeting, Resolution No. 10-286 was approved authorizing the purchase of new equipment from the Gross Receipts Tax Flood Control Fund for Flood Control Infrastructure Improvements.

It was determined that a new 4.1 Cubic Yard Front End Loader was needed to facilitate the flood control infrastructure improvements needed, specifically for the City of Las Cruces Dam.

To determine the lowest cost and most expeditious way to acquire a Front End Loader, comparisons were made within the HGAC vendors. It was determined that Sierra Machinery, Inc., of El Paso, Texas had the lowest pricing.
