BACKGROUND / KEY ISSUES / CONTRIBUTING FACTORS:

In the past five years an existing 8" sanitary sewer line has been jeopardized due to floodwater overtopping Roadrunner Parkway and eroding the arroyo embankment near the intersection of Roadrunner Parkway at Calais Avenue. The City has been working with the property owner since 2005 to acquire a utility and drainage easement to build the proposed project. The Calais Drainage Channel at Roadrunner Parkway is currently dirt and is to be upgraded to accommodate future storm water flow which will also protect the existing sanitary sewer with the installation of an 84" pipe.

The project includes the following:

This work including the installation of new concrete structures, earthwork, modifications to the sanitary sewer system, and the installation of an 84" diameter pipe.

Seven (7) bids were received for the Calais Drainage Channel Crossing at Roadrunner Parkway Project. Upon tabulating bids, it was discovered that there were minor mathematical errors on the bid submitted by Spartan Construction of NM, LLC. Bid proposals from G. Sandoval Construction Inc., Morrow Enterprises Inc., Renegade Construction, Burn Construction Company, AUI Inc., and Rummel Construction revealed no errors. Upon completion of all tabulations with the error corrections, G. Sandoval Construction, Inc. was the low, responsible, responsive bidder.

The Engineer's Estimate is \$367,633.00. The low bid from G. Sandoval Construction, Inc. was \$325,673.00 and is 11.4% below the Engineer's Estimate. The City's Project Development Section has reviewed bids and recommends that the Council award the Calais Drainage Channel Crossing at Roadrunner Parkway project to G. Sandoval Construction, Inc. in the amount of \$325,673.00 plus \$24,629.02 for New Mexico Gross Receipts Tax and a Change Order Contingency Amount of \$16,283.65, for a total amount of \$366,585.67.
