PEOPLE HELPING PEOPLE

Council Action and Executive Summary

Item # 10 Ordinance/Resolution# 2613 Council District: 2

For Meeting of April 18, 2011
(Adoption Date)

TITLE: AN ORDINANCE APPROVING A ZONE CHANGE FROM R-1A/C-2 (SINGLE-FAMILY MEDIUM DENSITY/COMMERCIAL MEDIUM INTENSITY) TO C-2C (COMMERCIAL MEDIUM INTENSITY-CONDITIONAL) FOR 0.68 ± ACRES OF LAND LOCATED AT 3350 OAK STREET. THE ZONE CHANGE REQUEST INCLUDES TWO VARIANCES: (1) A NUMERICAL REDUCTION OF 10-FEET TO THE MINIMUM REQUIRED 10-FOOT OPAQUE BUFFERYARD; AND (2) A NUMERICAL REDUCTION OF 5 PARKING STALLS TO THE MINIMUM REQUIRED 32 PARKING STALLS. SUBMITTED BY ASA ARCHITECTS ON BEHALF OF THE LAS CRUCES HOUSING AUTHORITY, PROPERTY OWNER. (Z2825)

PURPOSE(S) OF ACTION: To change property zoning from R-1a/C-2 to C-2C.

Drafter and Staff Contact: Adam Ochoa <i>AO</i>		Department: Community Development		Phone: 528-3204	
Department	Signature	Phone	Department	Signature	Phone
Department Director	<i>DW</i>	528-3066	Budget	<i>[Signature]</i>	541-2107

Legal	<i>[Signature]</i>	541-2128	City Manager	<i>[Signature]</i>	541-2076

BACKGROUND / KEY ISSUES / CONTRIBUTING FACTORS:

The property owner is requesting a zone change from R-1a/C-2 (Single-Family Medium Density/Commercial Medium Intensity) to C-2C (Commercial Medium Intensity-Conditional) for property 0.68 ± acres in size and located at 3350 Oak Street to bring the property into compliance with the 2001 Zoning Code, as amended. The zone change will allow the expansion of the existing apartment complex for counseling service offices. The existing apartment complex is currently used as a transitional living facility for U.S. Veterans.

In 1990, the property was rezoned from R-1 to C-2 through Ordinance 1169. However, the surveying that established the zoning boundary was done incorrectly thus resulting in the southern two-thirds of the property to be zoned C-2 and the northern one-third of the property remained zoned R-1. This request will correct the zoning boundary error. The C-2 zoning district permits both land uses (apartments & counseling offices).

The applicant is requesting two (2) variances. The first variance is for a numerical reduction of five (5) parking stalls to the minimum required 32 stalls. The applicant is proposing to provide 27 parking stalls on the subject property. The 27 total parking stalls are all that the subject property will be able to support after the proposed work and expansion are complete. The 1,500 square

foot expansion will eliminate 15 of the existing parking spaces. The second variance is for a numerical reduction of 10-feet to the minimum required 10-foot opaque bufferyard. The applicant is proposing to construct a 6-foot tall solid wall along the northern property line adjacent to the R-1a zoned properties with a 0-foot bufferyard between the existing parking stalls and property line. (See staff report for buffering requirements)

The proposed zone change is supported by several Land Use Elements within the 1999 Comprehensive Plan as noted in Exhibit "B" of the CAES packet. The variance requests to the minimum required number of parking stalls and to the minimum required bufferyard meet the criteria of the 2001 Zoning Code, as amended, for staff support.

In addition, the applicant is a recipient of state and federal monies to implement a transitional living facility for U.S. Veterans. The persons who will be utilizing the facility are not predominantly automobile dependent and may rely primarily on public transportation. A bus stop is located directly across the street of the subject property. The construction of a 6-foot tall solid wall will assist in mitigating the opaque bufferyard requirement.

On January 25, 2011, the Planning and Zoning Commission (P&Z) recommended conditional approval of the zone change and associated variance requests by a vote of 6-1-0. Some discussion took place at the meeting focusing on site design of the proposed new addition with the placement of ADA parking stalls. Staff has not received comments from the general public. The conditions are stipulated as follows:

- The property owner will be required to replat the subject property to dissolve the existing underlying lot lines. The replat must be filed prior to the issuance of a certificate of occupancy for any new construction.
- The property owner will be required to install a six-foot tall solid wall along the northern property line adjacent to the R-1a zoned properties.

N/A	N/A	N/A	N/A	N/A	N/A

OPTIONS / ALTERNATIVES:

1. Vote "Yes"; this affirms the Planning and Zoning Commission recommendation for conditional approval. The subject property located at 3350 Oak Street, with a combined area of 0.68 ± acres, will be rezoned from R-1a/C-2 (Single-Family Medium Density/Commercial Medium Intensity) to C-2C (Commercial Medium Intensity-Conditional). The zone change will allow the use of a transitional living and counseling facility for Veterans with two variances: (1) a numerical reduction of five (5) parking stalls to the minimum required 32 stalls; and (2) a numerical reduction of 10-feet to the minimum required 10-foot opaque bufferyard.
2. Vote "No"; this reverses the recommendation made by the Planning and Zoning Commission. The current zoning designation of R-1a/C-2 (Single-Family Medium Density/Commercial Medium Intensity) will remain on the subject property located at 3350 Oak Street. The subject property will be required to follow all development standards including all parking requirements and bufferyard requirements for the proposed new construction of the office.
3. Vote to "Amend" and vote "Yes"; this may allow Council to modify the Ordinance by adding conditions as determined appropriate.
4. Vote to "Table"; Council may table/postpone the Ordinance and direct staff accordingly.

REFERENCE INFORMATION

The resolution(s) and/or ordinance(s) listed below are only for reference and are not included as attachments or exhibits.

1. Ordinance No. 1169

COUNCIL BILL NO. 11-033
ORDINANCE NO. 2613

AN ORDINANCE APPROVING A ZONE CHANGE FROM R-1A/C-2 (SINGLE-FAMILY MEDIUM DENSITY/COMMERCIAL MEDIUM INTENSITY) TO C-2C (COMMERCIAL MEDIUM INTENSITY-CONDITIONAL) FOR 0.68 ± ACRES OF LAND LOCATED AT 3350 OAK STREET. THE ZONE CHANGE REQUEST INCLUDES TWO VARIANCES: (1) A NUMERICAL REDUCTION OF 10-FEET TO THE MINIMUM REQUIRED 10-FOOT OPAQUE BUFFERYARD; AND (2) A NUMERICAL REDUCTION OF 5 PARKING STALLS TO THE MINIMUM REQUIRED 32 PARKING STALLS. SUBMITTED BY ASA ARCHITECTS ON BEHALF OF THE LAS CRUCES HOUSING AUTHORITY, PROPERTY OWNER. (Z2825)

The City Council is informed that:

WHEREAS, the Las Cruces Housing Authority, the property owner, has submitted a request for a zone change from R-1a/C-2 (Single-Family Medium Density/Commercial Medium Intensity) to C-2C (Commercial Medium Intensity-Conditional) for property located at 3350 Oak Street; and

WHEREAS, the Las Cruces Housing Authority, the property owner, also submitted two variance requests with the zone change request; and

WHEREAS, the first variance request is for a numerical reduction of 10-feet to the minimum required 10-foot opaque bufferyard; and

WHEREAS, the second variance request is for a numerical reduction of 5 parking stalls to the minimum required 32 parking stalls; and

WHEREAS, the Planning and Zoning Commission, after conducting a public hearing on January 25, 2011, recommended that said zone change request with two variance requests be conditionally approved by a vote of 6-1-0.

NOW, THEREFORE, Be it ordained by the governing body of the City of Las Cruces:

(I)

THAT the land more particularly described in Exhibit "A", attached hereto and made part of this Ordinance, is hereby zoned C-2C (Commercial Medium Intensity-Conditional) for property located at 3350 Oak Street.

(II)

THAT the conditions be stipulated as follows:

- The property owner will be required to replat the subject property to dissolve all underlying lot lines. The replat must be filed prior to the issuance of a certificate of occupancy for any new construction.
- The property owner will be required to install a six (6) foot opaque wall along the northern property line adjacent to the R-1a zoned properties.

(III)

THAT the two variance requests are hereby approved as follows:

- A numerical reduction of 10-feet to the minimum required 10-foot opaque bufferyard.
- A numerical reduction of 5 parking stalls to the minimum required 32 parking stalls.

(IV)

THAT the zoning is based on the findings contained in Exhibit "B" (Findings and Comprehensive Plan Analysis), attached hereto and made part of this Ordinance.

(V)

THAT the zoning of said property be shown accordingly on the City Zoning Atlas.

(VI)

THAT City staff is hereby authorized to do all deeds necessary in the accomplishment of the herein above.

DONE AND APPROVED this _____ day of _____ 2011.

Planning & Zoning
Commission
Staff Report

Date: January 18, 2011

CASE # Z2825

PROJECT NAME: 3350 Oak Street (Zone Change)

APPLICANT: ASA Architects

PROPERTY OWNER: Las Cruces Housing Authority

REQUEST: To rezone from R-1a/C-2 (Single-Family Medium Density/Commercial Medium Intensity) to C-2C (Commercial Medium Intensity-Conditional) and to vary from the required ten (10) foot opaque bufferyard to a zero (0) foot opaque bufferyard and to vary from the minimum required number of parking stalls from 32-parking stalls to 27-parking stalls.

PROPOSED USE: Transitional living and counseling facility for Veterans

SIZE: 0.68 +/- acres

CURRENT ZONING: R-1a/C-2 (Single-Family Medium Density/Commercial Medium Intensity)

LOCATION: The northwest corner of Oak Street and Union Avenue; a.k.a. 3350 Oak Street; Parcel ID# 02-13094

COUNCIL DISTRICT: 2

PLANNING COMMISSION DATE: January 25, 2011

PREPARED BY: Adam Ochoa, Planner

STAFF RECOMMENDATION: Approval with Conditions for the zone change
Approval for the two variances

PROPERTY INFORMATION

Address/Location: The northwest corner of Oak Street and Union Avenue; a.k.a. 3350 Oak Street; Parcel ID# 02-13094

Acreage: 0.68 +/-

Current Zoning: R-1a/C-2 (Single-Family Medium Density/Commercial Medium Intensity)

Current Land Use: Apartment Complex

Proposed Zoning: C-2C (Commercial Medium Intensity-Conditional)

Proposed Land Use: Transitional living and counseling facility for Veterans

Is the subject property located within an overlay district? Yes No
If yes which overlay district?

FINDINGS & COMPREHENSIVE PLAN ANALYSIS

1. The subject property is located at 3350 Oak Street, is zoned R-1a/C-2 (Single-Family Medium Density/Commercial Medium Intensity) and encompasses 0.68 +/- acres.
2. The subject property is the current location of an apartment complex.
3. The proposed zone change would allow the use of the existing apartment complex as a transitional living and counseling facility for Veterans.
4. A variance of five (5) parking spaces from the minimum required 32-parking spaces is required with the proposed zone change.
5. A variance to the minimum required ten (10) foot opaque bufferyard is also required for the proposed zone change.
6. The rezoning request is constant with the following Goals, Objectives, and Policies of the City of Las Cruces Comprehensive Plan:

Land Use Element Goal 1

Policies

- 1.3.1. An urban residential use shall be so designated where these uses occur at a density of greater than two dwelling units per acre. A rural residential use shall be so designated where these uses occur at a density of less than or equal to two dwelling units per acre.
- 1.3.4. High density uses shall be encouraged to concentrate in and around transportation and communication corridors, thereby supporting a mixed distribution of uses. Lower and rural density residential uses shall be located away from such corridors.
- 1.3.5. All residential development shall address the following urban design criteria: compatibility to the adjacent neighborhood in terms of architectural design, height/density, and the provision of landscaping. Architectural and landscaping design standards for residential uses shall be established in the Comprehensive Plan Urban Design Element.
- 1.3.10 High density residential uses shall be located and designed to minimize traffic flow through adjacent neighborhoods and should locate on or near existing or future planned transit routes.

ADJACENT ZONING AND LAND USE INFORMATION

Table 2: Land Uses

Location		Existing Use	Zoning District	Zoning Designation
Subject Property		Multi-Family Dwelling Units	R-1a/C-2	Single-Family Medium Density/Commercial Medium Intensity
Surrounding Properties	North	Single-Family Dwelling Units	R-1a	Single-Family Medium Density
	South	City Limits		
	East	Single-Family Dwellings	R-3	Multi-Dwelling Medium Density
	West	Commercial Uses	C-2	Commercial Medium Intensity

HISTORY

Previous applications? Yes No

If yes, please explain: A zone change to correct the zoning on the subject property to C-2 (Commercial Medium Intensity)

Previous ordinance numbers? 1169

Previous uses if applicable: Apartment Complex

COMPREHENSIVE PLAN

Elements & Policies

Land Use Element

1. Goal 1, Policy 1.3.1.
2. Goal 1, Policy 1.3.4.
3. Goal 1, Policy 1.3.10.

Analysis: The applicant is seeking a zone change from R-1a/C-2 to C-2C to facilitate the construction of a transitional living and counseling facility for veterans. The surrounding area is a mix of single-family uses, multi-family uses and commercial uses so the zone change is compatible with surrounding land uses. Union Avenue is a minor arterial roadway, which is recommended for uses related to this, and public transportation is available. Overall, this zone change request seems to follow Comprehensive Plan policy.

Enrollment: 2326 | Distance: 1.05 +/- miles |

Adequate capacity to accommodate proposal? Yes No N/A **DESIGN STANDARDS ANALYSIS**ParkingIs there existing parking on the site? Yes No N/A

If yes, how many parking spaces presently exist? 42 How many are accessible? 0

If no, will parking be required for the proposed use? Yes No N/A

If yes, how many parking spaces will be required? 32 to 42 How many accessible? 4

Is there existing bicycle parking on the site? Yes No N/A

If yes, describe:

If no, how many bicycle parking spaces will be required? 7 bicycle parking spaces will be required for the facility

Will bicycle parking be required for the proposed use? Yes No N/A

Comments: The proposed expansion of the existing building will result in a loss of parking stalls. With the expansion of the building, the site can support 27 parking stalls; which is a numerical deviation of 5 stalls from the required minimum of 32 parking stalls.

Landscaping and BufferingIs there existing landscaping on the subject property? Yes No N/A If yes, is the landscaping adequate to serve the proposed use? Yes No

If no, what landscaping will be required? A minimum area equal to 15% of the total parking area shall be landscaped.

Are there existing buffers on the subject property? Yes No N/A

If yes, are the buffers adequate to serve the proposed use? Yes No

If no, what additional buffering will be required? A ten (10) foot wide opaque buffer is required along the northern property line of subject property adjacent to the R-1a zoned properties. The parking area currently exists right along the northern property line with no room to add a ten (10) foot wide opaque buffer. The applicant is proposing to construct a six (6) foot solid wall along the northern property line to serve as a buffer for the subject property from the adjacent residential lots in lieu of providing a ten (10) foot wide opaque buffer.

Open Space, Parks, Recreation and Trails

Are there presently any existing open space areas, parks or trails on the subject property?

Yes No N/A

Explain: There are no requirements of open space, parks, recreation, or trails for the proposed zone change

Are open space areas, parks or trails a requirement of the proposed use?

Yes No N/A

Are open space areas, parks or trails being proposed? Yes No N/A

Explain: There are no requirements of open space, parks, recreation, or trails for the proposed zone change

SUMMARY AND CONCLUSIONS

The proposed zone change is supported by the Development Services Staff and all reviewing departments in the City of Las Cruces. The proposed zone change meets the character and integrity of the existing surrounding area and is supported by the 1999 Comprehensive Plan. The existing use on the subject property of an apartment complex is similar in nature to the proposed use of a transitional living and counseling facility for Veterans and will not negatively affect the surrounding area. In 1990 a surveying error occurred when Ordinance 1169 was passed. The ordinance corrected the zoning on the subject property as well as other surrounding properties to C-2 (Commercial Medium Intensity). The subject property was incorrectly surveyed and only the bottom two-thirds (2/3) of the subject property was rezoned C-2 while the top one-third (1/3) remained zoned R-1a (Single-Family Medium Density). Two variances are required for this zone change and the proposed future expansion of the existing building on the subject property.

The applicant is proposing to install 27 parking spaces which is 5 fewer than the minimum required 32 parking spaces. The variance to the number of parking spaces is supported by staff due to the fact that the counseling services will be provided to the residents within the adjoining building and should not create new vehicular trips. The subject property is also limited in size making siting of the minimum required of parking spaces a challenge. Overall it is staff's opinion that the number of proposed parking spaces should adequately support the proposed use.

A second variance to the minimum required bufferyard is also required for the subject property. The subject property is required to provide a ten (10) foot wide opaque buffer along the northern property line of subject property adjacent to the R-1a zoned properties. The applicant is proposing to construct a six (6) foot tall wall along the northern property line adjacent to the R-1a zoned properties with a zero (0) foot bufferyard between the parking spaces on the subject property and the property line. The applicant is also proposing a six (6) foot solid wall with no intermittent openings up to 20 feet. Staff is in support of this variance due to the fact that the size of the subject property and the layout of the existing buildings extremely limits any possible room for a ten (10) foot opaque bufferyard, or room to install landscaping for intermittent openings over the opaque screening up to 20 feet. Staff also believes that since the parking spaces along the northern property are already in existence no additional negative impact will take place for the adjacent R-1a properties. The proposed wall will be an improved addition to the subject property to help divert any negative impacts on the adjacent northern properties.

Currently there are underlying lot lines on the subject property. The underlying lot lines will have to be vacated prior to any new construction on the subject property.

FINDINGS

1. The subject property is located at 3350 Oak Street, is zoned R-1a/C-2 (Single-Family Medium Density/Commercial Medium Intensity) and encompasses 0.68 +/- acres.
2. The subject property is the current location of an apartment complex.
3. The proposed zone change would allow the use of the existing apartment complex as a transitional living and counseling facility for Veterans.
4. A variance of five (5) parking spaces from the minimum required 32-parking spaces is required with the proposed zone change.
5. A variance to the minimum required ten (10) foot opaque bufferyard is also required for the proposed zone change.
6. The rezoning request is consistent with the Goals, Objectives, and Policies of the City of Las Cruces Comprehensive Plan.

STAFF RECOMMENDATION

Staff has reviewed the proposed zone change and based on the preceding findings recommends approval with the following conditions:

1. The property owner will be required to replat the subject property to dissolve all underlying lot lines. The replat must be filed prior to the issuance of a certificate of occupancy for any new construction.
2. The property owner will be required to install a six (6) foot opaque wall along the northern property line adjacent to the R-1a zoned properties.

Staff has also reviewed the proposed variance to the minimum number of parking stalls and the proposed variance to the minimum required buffer yard and recommends approval.

 Acreage of Subject Property: .68

Detailed description of intended use of property. (Use separate sheet if necessary):

TRANSITIONAL LIVING FOR VETERANS

Proposed square footage and height of structures to be built (if applicable):

APPROX 1500 SF (EXISTING = APPROX 11,500 S.F.)

Anticipated hours of operation (if proposal involves non-residential uses):

COUNCILING CENTER

INTERMITTENT but typically between
the hours of 9-5 for on-site residents
currently councilors visit in indiv. units
the proposed multi purpose space provides
private counciling space & comp. workstations

Anticipated traffic generation NO CHANGE trips per day (if known).

Anticipated development schedule: Work will commence on or about _____
and will take approximately 4 MONTHS to complete.

How will stormwater runoff be addressed (on-lot ponding, detention facility, etc.)?

ON LOT PONDING

Will any special landscaping, architectural or site design features be implemented in the proposal (for example, rock walls, landscaped medians or entryways, or architectural themes)? If so, please describe and attach rendering if available:

YES - LANDSCAPE TO MEET CITY OF
LAS VEGAS DESIGN STANDARDS

Comprehensive Plan Analysis

Land Use Element

Goal 1

Policies

- 1.3. 1. An urban residential use shall be so designated where these uses occur at a density of greater than two dwelling units per acre. A rural residential use shall be so designated where these uses occur at a density of less than or equal to two dwelling units per acre.
- 1.3.4. High density uses shall be encouraged to concentrate in and around transportation and communication corridors, thereby supporting a mixed distribution of uses. Lower and rural density residential uses shall be located away from such corridors.
- 1.3.5. All residential development shall address the following urban design criteria: compatibility to the adjacent neighborhood in terms of architectural design, height/density, and the provision of landscaping. Architectural and landscaping design standards for residential uses shall be established in the Comprehensive Plan Urban Design Element.
- 1.3.10. High density residential uses shall be located and designed to minimize traffic flow through adjacent neighborhoods and should locate on or near existing or future planned transit routes.

 21
 22 Bustos: Aye, findings and discussion.
 23
 24 Scholz: Commissioner Beard.
 25
 26 Beard: Aye, findings, discussion and site visit.
 27
 28 Scholz: And the Chair votes aye for findings and discussion. Thank you,
 29 gentlemen.
 30
 31 6. **Case Z2825:** Application of ASA Architects on behalf of the Las Cruces
 32 Housing Authority to rezone from R-1a/C-2 (Single-Family Medium
 33 Density/Commercial Medium Intensity) to C-2 (Commercial Medium Intensity)
 34 on a 0.68+/- acre tract located on the northwest corner of Oak Street and Union
 35 Avenue; a.k.a. 3350 Oak Street; Parcel ID# 02-13094; Proposed Use:
 36 Transitional living and counseling facility for Veterans. Council District 2.
 37
 38 Scholz: Our last case is Z2825 and, Mr. Ochoa, you are up again.
 39
 40 Ochoa: Yes, sir. The final case for tonight is another zone change application,
 41 Z2825. It is a request for a zone change from R-1a/C-2, Single-Family
 42 Medium Density/Commercial Medium Intensity to C-2, which is
 43 Commercial Medium Intensity-Conditional for property located at 3350
 44 Oak Street.
 45 The property is located on the northwest corner of Oak Street and
 46 Union Avenue. It currently encompasses approximately 0.68 acres and

1 contains an existing apartment complex. The applicant is proposing to
2 expand the existing structures, or add to the existing structures on site,
3 and develop a transitional living and counseling facility. The zone change
4 is required to remove the R-1a zoning component that is located on the
5 top one-third of the subject property, making the entire property zoned C-2
6 instead and the C-2 zoning designation for the district would allow both of
7 these uses by right.

8 For the zone change the development would require two variances
9 along with this. First there would be a variance to the minimum required
10 number of parking stalls from 32 stalls to 27, a variance of 5 parking stalls;
11 and they would also require a variance to the minimum required bufferyard
12 from 10-foot opaque bufferyard to a zero-foot opaque bufferyard.

13 Here is an existing site plan with the two existing apartment
14 buildings. You can see parking in the front and the parking in the rear, all
15 currently existing to the existing R-1a homes. Where the buffer is required
16 would be along this northern property line where the parking is currently
17 existing and you can see it's extremely restrictive. With the new
18 development they are proposing installing, as I said, 27 parking stalls. The
19 proposed expansion would result in the loss of parking stalls. The site will
20 be able to support the total number of parking stalls of 27. Some
21 landscaping currently exists on the subject property but a minimum of 15%
22 of the total parking area shall have to be landscaped. The applicant is
23 also proposing to install a 6-foot wall in lieu of providing a 10-foot wide
24 opaque bufferyard. Parking area that currently exists on site along the
25 northern property line will allow no room to add a 10-foot opaque
26 bufferyard, which staff feels. The existing buildings and layout of the
27 property also limits any possible room for any 10-foot bufferyard. There
28 are currently underlying lot lines on the subject property that will have to
29 be vacated prior to any construction. They have to be vacated by the
30 applicant with a replat prior to any construction on the property.

31 Here's kind of a proposed site plan of what this site would look like.
32 The front parking stalls along Union would basically be removed, adding
33 the two ADA-accessible units and a counseling area. Counseling will be
34 for people on-site. People from outside will not be coming there so there
35 will not be that added traffic coming into the property and, as you can see
36 there, it looks like they are proposing 29 parking stalls but they do need an
37 extra loading area for the ADA parking so that would actually bring them to
38 a total number of parking stalls to about 27.

39 Here is an aerial of the subject property. Like I said, this is the front
40 along Union and Oak Street right here. Here is that rear parking area that
41 is in question. You can see there is the property line there running along
42 that wall of the R-1a zoned properties with the restricted area for any type
43 of buffering and additional parking.

44 Staff has reviewed this zone change and recommends approval
45 with conditions based on preceding findings: the property owner will be
46 required to replat the subject property to dissolve all underlying lot lines.

1 The replat must be filed prior to the issuance of a certificate of occupancy
 2 for any new construction. The second condition is: the property owner
 3 will be required to install the six (6) foot opaque wall along the northern
 4 property line adjacent to the R-1a zoned properties.

5 Staff has also reviewed the proposed variance to the minimum
 6 number of parking stalls and the proposed variance to the minimum
 7 required bufferyard and recommends approval for these two, as well,
 8 along with the zone change. The recommendation of the Planning and
 9 Zoning Commission will be forwarded to City Council for final
 10 consideration.

11 Your options tonight, gentlemen, are: 1) vote "yes" to approve the
 12 zone change and variances request as recommended by staff for case
 13 Z2825; 2) to vote "yes" to approve the zone change and variance request
 14 with additional conditions; 3) to vote "no" to deny the zone change and
 15 variance request; 4) to table/postpone and direct staff accordingly. That is
 16 the end of my presentation. The applicant is here to answer any
 17 questions and possibly add more to my presentation. I also stand for
 18 questions.

19
 20 Scholz: Questions for this gentleman? Commissioner Crane.

21
 22 Crane: I'd like to bring up two points: one is I don't understand the first paragraph
 23 of Summary and Conclusions, the part that says... about the middle,
 24 "...that due to incorrect surveying the bottom two-thirds (2/3) of the subject
 25 property was rezoned C-2 while the top one-third (1/3) remained zoned R-
 26 1a. What's our point of reference here? Are we talking vertically?.... the
 27 top 10-feet of the building one zone and the bottom 20-feet another?

28
 29 Scholz: I think he's talking about north/south. Aren't you?

30
 31 Crane: Okay, so does top mean "north?"

32
 33 Ochoa: Correct. Mr. Chairman, Commissioner Crane, to clarify: I mean the actual
 34 subject property itself, the top or northern one-third of the subject property
 35 is zoned R-1a while the bottom or southern portion of the subject property,
 36 two-thirds of the subject property is zoned C-2. That was kind of a
 37 correction done by staff with, I believe, of Ordinance 11...

38
 39 Scholz: 69

40
 41 Ochoa: Thank you very much. 1169... that basically cleaned that up but due to a
 42 surveying error that top portion or the northern portion, excuse me, of the
 43 subject property was left R-1a.

44
 45 Crane: My question was that if the applicant were to put in a 10-foot opaque
 46 barrier that's required by Code the people to the north would be looking at

1 the existing 3-foot wall and then, perhaps, a row of trees. Wouldn't that
2 constitute an opaque barrier, the way we've often heard presented?
3

4 Ochoa: The 10-foot opaque barrier that would be required is basically from the
5 property line into the subject property by 10-feet. They would have to
6 have an up to 6-feet of opaque screening, so like a wall or something that
7 you can't see, and then scattered landscaping and an intermittent visual
8 opening up to 20-feet. Of course, also by doing that, that would basically
9 cut their parking area in half.
10

11 Crane: So from the viewpoint of the neighbors to the north things will look about
12 the same as they would have if the variance were not granted?
13

14 Ochoa: Correct, sir, but the condition that we are proposing though, they would be
15 required to put a 6-foot...
16

17 Crane: Yeah.
18

19 Ochoa:tall wall (*inaudible*)
20

21 Crane: So the only people really affected are the ones that are in the apartment
22 complex. They're the ones who don't get to see the pretty landscaping,
23 right?
24

25 Ochoa: Correct, sir.
26

27 Crane: Okay, thank you.
28

29 Scholz: I have a question: who did the ... who ran spell check on this? I found at
30 least half-a dozen errors. Just curious, you know.
31

32 Ochoa: Mr. Chairman, my apologies. This is a new format we're trying to work on.
33 There're templates that we're trying to fix and change and so forth. It just
34 fell through, unfortunately. I apologize. I'll take the blame for that,
35 actually.
36

37 Scholz: All right. Any other questions for Mr. Ochoa? Okay, may the applicant
38 present her case?
39

40 Boyd: Good evening, Mr. Chairman and Commissioners. My name is Colleen
41 Boyd. I'm the architect that is the applicant for the Housing Authority for
42 the City of Las Cruces. This is a transitional living facility for homeless
43 veterans here in this community and in an effort to serve our veterans the
44 Community of Hope, in cooperation with the Housing Authority of Las
45 Cruces, has determined that the addition of two handicap-accessible units
46 and a multi-purpose room where counseling services and meetings can

1 take place on site would better serve those who have served us. And
2 that's all. Thank you for your consideration this evening.
3
4 Scholz: Okay, questions for this lady? Yes, Commissioner Beard.
5
6 Beard: I'm Where's the alley? Is the alley disappearing now?
7
8 Boyd: No, sir, it is not.
9
10 Scholz: The plan says the alley's vacated? Is that official or is that just a...?
11
12 Boyd: You know, this particular project does not affect the alley at all. Our
13 property lines are just on the inside of the alley so as far as we're
14 concerned it has no effect.
15
16 Beard: Okay, I'm looking on page...I don't know what that is.... oh, attachment
17 number 3...and it looks like this building actually attaches to the other
18 building or to the existing apartment.
19
20 Boyd: Is this the sheet that you're looking at, Commissioner? So, again, the
21 alley runs north and south, right here....
22
23 Beard: U-m-m-m... that's my problem...oh, I'm sorry. There's an alley on the
24 north side.
25
26 Boyd: it's on the west side.
27
28 Scholz: Okay, we actually have two drawings here and the original plat, which is
29 dated 1991, shows a vacated alley in the parking lot of the north side. Is
30 that what's confusing you, Commissioner Beard?
31
32 Beard: Yeah, that confused me.
33
34 Scholz: That confused me as well but I realized it's a parking lot. It's not an alley.
35
36 Beard: Okay, I want to go back to the...now that I know that one.
37
38 Scholz: Okay.
39
40 Beard: But it still looked like on attachment number 3 that the new structure is
41 actually attaching to the existing apartment. That's what it looked like to
42 me.
43
44 Boyd: That is correct and for Code reasons we decided to handle it that way. It
45 has to do with the fact that the apartment structure can be a certain
46 number of square feet before we exceed the maximum and, therefore, we

1 don't have to address Fire Code separation between these two structures
2 if we actually attach it.
3
4 Scholz: Okay
5
6 Beard: So, what about the windows in that building?
7
8 Boyd: You know, where you are seeing this attachment we have already
9 addressed that. This unit right here has an egress window on the west
10 side that they would be able to go out of; because you're absolutely
11 correct. There are bedroom windows all along that south side but we
12 have taken that into consideration.
13
14 Beard: But if you put a building right up next to it doesn't that block the window?
15
16 Boyd: Well, what I'm saying is: we would eliminate one window in that unit but
17 the bedroom for egress requirements would still be there.
18
19 Beard: Do you own that property?
20
21 Boyd: No, sir. The City of Las Cruces, the Housing Authority does.
22
23 Beard: Oh, okay.
24
25 Scholz: All right, anything else?
26
27 Boyd: That's a very good question.
28
29 Beard: Well, I'm starting to understand.
30
31 Scholz: Commissioner Shipley.
32
33 Shipley: I do have several questions: number one, all the handicapped parking is
34 up on the northeast corner of the building and all of the handicapped
35 facilities are on the southwest corner of the building. So that means that
36 during inclement weather or any time high winds, whatever, whoever is
37 using it wheelchair-wise, has got to wheel themselves all the way around
38 the building, two buildings, to get to their apartment....and I think you,
39 maybe....I just want to say: I don't think that's acceptable.
40 The other thing is: I would think that you would be better suited to
41 put on the end of the building, to put everything along there, along the
42 alley and then you could make your handicapped parking up there where
43 your Dumpster is now and move that; because you have access along the
44 alley. The way I see this right now, your layout right now, is destroying
45 parking. You're going from 32 to 27 and making it harder for the
46 handicapped people to get to their handicapped units, which I think are

1 needed, but you could "T" that up here and maybe lose a couple spaces
2 and still save spaces down here. The residents that live in this southern
3 building are going to be upset because their parking spaces where they
4 park now are going away.

5 So, the ponding area is also....as I walked this property today and,
6 you know, there's two areas on the east side that they have a couple
7 areas with picnic tables, two trees and then the same thing on the back
8 with a picnic table and trees. There's no real area, except between the two
9 buildings, for any kids to play whatsoever. I would just think that....I don't
10 know if you could do something in that same area, you know, it would be
11 longer; but then the bottom line is you would be able to get your
12 handicapped parking closer to the units and adjust there accordingly.

13
14 Boyd: Commissioner Shipley, your points are very well taken and I will say that
15 on the initial design of this we put the handicapped parking right up front
16 next to the multi-purpose room and the offices. Due to the fact that it is in
17 close proximity to the intersection there was some input from the Traffic
18 Engineer here that indicated they did not want the parking up front. Now
19 that doesn't mean that we can't revisit this issue and look at the possibility,
20 of maybe, providing one or two spaces up front so that we can maybe
21 adjust this curb cut so that we do come in the 30-foot required away from
22 the intersection.

23 You know, at this point we really need the variance before we can
24 proceed any further with any more design and, of course, again your point
25 is well-taken about this area back here.

26 I do want to say the say the nature of the residents for this
27 community, again, homeless veterans in transition; very, very few of them
28 even own vehicles so parking is not an issue. You probably noticed when
29 you went over there the facility is full. There are very few cars in the lots
30 and what we could consider the priority is that we really provide space up
31 front for the handicapped units first and foremost in the event that those
32 folks would have vehicles.

33
34 Shipley: I was just concerned that you're going to end up with people that are to try
35 to do on-street parking. There's no parking along that street so that
36 means they've got to park on the side street here....and I don't think
37 there's any room to park anyplace there because there's basically two
38 entrances into the back portion of the driveway....and I pulled out, there's
39 a curb cut on this corner, too.

40
41 Boyd: Yeah, you're right. Again, I would like to revisit this with the Traffic
42 Engineer, Dan Soriano, just to look at the possibility of putting one or two
43 spaces up front there. I think there might be a solution that we just haven't
44 found yet.
45

1 Scholz: I would hope so because I share the same concern. You really want your
2 handicapped parking close to....
3
4 Boyd: Absolutely, I understand.
5
6 Scholz: Commissioner Beard, you had a question or a comment?
7
8 Beard: Yes. I don't know whether it's a concern or a question. With the setback
9 now 5-feet isn't there a high-voltage power supply back there?
10
11 Boyd: There very well....yes.
12
13 Beard: Are you infringing on getting too close to that?
14
15 Boyd: No, sir. No, again, we would take a much closer look at all of those issues
16 once we got into this a little bit further with the design. Of course we
17 would hire on our engineers to take a look at all of this.
18
19 Beard: So, with this 5-foot setback you are within Code of being away from that
20 power unit?
21
22 Boyd: Yes, sir.
23
24 Beard: Okay.
25
26 Scholz: All right. Commissioner Shipley.
27
28 Shipley: What about moving this thing to the other end, to the northern end?
29
30 Boyd: U-m-m-m-m....
31
32 Shipley: Just flip-flop it.
33
34 Boyd: Um-hmm. There was some desire on the part of the Housing Authority
35 and Community of Hope of giving us some visibility, you know....
36
37 Shipley: I mean, you've got all that traffic on the highway. If I was a handicapped
38 person living there and didn't have mobility and had to listen to silence and
39 all that....
40
41 Boyd: Um-hmmm.
42
43 Shipley: I don't think that's appropriate. If you can step it back and do the same
44 thing on the opposite end of the building you've accomplished something
45 where you've got plenty of parking. If it's needed, if it's not going to be
46 used, that's fine, too.

1
2 Boyd: Well, that's, certainly, a consideration that we could look at.
3
4 Shipley: Well, I think that's a better solution than the way it is now because I just
5 don't like the fact that people have to walk all the way around the building
6 or wheel themselves all the way around or come on crutches all the way
7 around the building to get there. If we can't do the handicapped mixed
8 with the housing I'm not going to support it.
9
10 Boyd: Yes, sir. I would like Mr. Hassell to speak to that point.
11
12 Hassell: Mr. Chairman, Commissioners, Tom Hassell, Director of the City Housing
13 Authority. Yeah, I think those are all excellent points. I think the original
14 design that we discussed had the handicapped parking in the lower right-
15 hand corner of this design. Absolutely, we want the parking next to the
16 application where it'll be required.
17 A couple of things, though, that might have some bearing on this:
18 the funding that's being used to build this is capital outlay money. It's
19 currently under the knife, so to speak, and we have some time constraints
20 to get it spent and this zoning change happened to be a hiccup in the
21 whole issue.
22 So I have absolutely no concerns about moving the unit to the north
23 parking lot. From my point of view I don't see it as a problem. One of the
24 things that we're trying to do, though, with this particular population, it
25 being a homeless transient population, in essence, we have concerns
26 about traffic coming from....and when I say traffic, I mean other people,
27 other homeless people, coming on site....and our intention is to....we've
28 applied for a Veteran's Grant that allows for some subsidy. It also allows
29 for additional money to help us do capital improvements like fire, safety
30 and that sort of thing.
31 One of the things we want to do is to turn this into more of a gated
32 community so that the people that access the living area and offices have
33 electronic card access and that way we could keep that transient traffic off
34 of the property.
35 Again, the other issue here, really the idea here is that since these
36 people are here transitionally we want to give them the services to go out
37 and get jobs, get trained, get help, care, whatever is required and we don't
38 want to have to transport them off site. That's why we want the offices in
39 the main meeting area. Two handicapped units....initially we had had
40 funding to afford to actually do that. I don't think we're going to be able to
41 reach far enough with our monies to do that now but we want to allow for
42 them in the design because eventually we do want to put them in there.
43 So we're definitely not averse to moving this design, flip-flopping it on the
44 other side. We were trying somewhat to respect the residential properties
45 to the north of us and so we thought it would be better to keep that buffer
46 between our building and the residences.

1 We also felt that even though we would have these two
2 handicapped units there we felt that maybe the multi-purpose buildings
3 and the offices would act as a buffer to our main living area, which is the
4 two existing apartment complexes. So if you can envision this as being
5 somewhat enclosed, a little recreational area in the back, the courtyard in
6 between the buildings and all of the walls, so to speak, so that it becomes
7 more of a private community for the people that are actually living there
8 and as a buffer to those people that are living around it.
9

10 Scholz: So, you're saying, Mr. Hassell, that we want to move on this because
11 otherwise the money will evaporate?
12

13 Hassell: Well, we're in a position right now that if we can't get the money under
14 contract there's a very good likelihood that....we have roughly a quarter-
15 of-a million dollars outstanding. If we can't get it under contract we'll lose
16 it. It'll be recaptured. We lost half of....roughly had close to seven
17 hundred thousand and we're down to that quarter-million now because it's
18 been recaptured. So, that's a separate issue but still, I think very definite
19 time constraints on using the funding.
20

21 Scholz: I understand that as a condition, yes. Commissioner Shipley.
22

23 Shipley: But I think if you flip-flopped that and....it's all paper right now, a spade
24 hasn't been turned so if you do that I think we have no problem. We can
25 make that conditional, if that's all right with you all?
26

27 Evans: I don't have any problem with that. Absolutely.
28

29 Shipley: Then that could be approved by staff. Is that correct, sir?
30

31 Scholz: Staff is going to go into a huddle on this.
32

33 Evans: Mr. Chairman.
34

35 Scholz: Commissioner Evans.
36

37 Evans: What are the issues with flipping it? I like the project. I'm in support of it.
38 You give some good rationale for why you did things. In trying to give
39 some guidance on redesigning that you would have to, I believe, go back
40 and repetition this because now you really are encroaching upon the back
41 yards of those folks and, you know, you're adding additional time and, at
42 the end of the day, you know, there may be some substantial resistance
43 from those homeowner to building a structure right on that property line.
44 So, I guess I'm not sure what we're....
45

46 Scholz: I think the architect wants to talk to this.

- 1
2 Boyd: The only other disadvantage I see of flipping this is that we will not
3 ultimately have as many parking spaces as indicated right now because
4 this is not a double-loaded lot currently. There's only one row of parking
5 up against the building on this side. Again, not a huge concern in the
6 scheme of things as far as the current use, but definitely something that
7 we might want to keep in mind.
8
- 9 Scholz: Thank you. Okay, I'm open to....I think staff may have a word for us.
10 Tom, something else?
11
- 12 Hassell: Well, Cheryl just made it clear that if we just summarily flip the design that
13 she's going to request that you table this and that means it comes back
14 later. That's not really too acceptable for us because we're time
15 constrained so I'm not averse to looking at redesigning this and I think
16 there's a way we can meet the requirement to get the parking next to the
17 handicapped unit somehow.
18
- 19 Scholz: Which seems to be our main concern, yes.
20
- 21 Hassell: And, you know, I'll just point this out, too, I think in the original design
22 where the two handicapped units are facing the ponding area, the intent
23 was that they would access those parking lots that direction not out and
24 around and the reason for that is that it's not an open, totally exposed
25 courtyard so they wouldn't be under protection of the weather if they come
26 through that courtyard and we might even be able to move the
27 handicapped parking spaces down to the west end of that so that we can
28 cut that distance, basically, in half. I'm sure we can come up with a design
29 that would probably work.
30 Another option that we've looked at, too, is the possibility of not
31 even building the two handicapped units. We still need the offices and the
32 multi-purpose building but possibly retrofitting a couple of the units that are
33 existing on the ground floor, maybe on the north side; although that
34 alternative, I don't think....it's a little less acceptable just because you're
35 stuck with what you have in terms of the sizes of the units but that's also
36 another option. But I would really very much like to get the zone change
37 taken care so we could go forward with the design and work on something
38 that allow those fixes.
39
- 40 Scholz: All right. Mr. Ochoa, you had another comment?
41
- 42 Ochoa: Yes, Mr. Chairman, I just want to remind the Commission....tonight is just
43 a recommendation so the actual....what we're voting tonight is a
44 recommendation to the City Council for a zone change and the two
45 variances themselves. The design of the property can be manipulated in
46 the future and they will just have to work with the restrictions of the actual

1 variances that they had, I guess, given to them when everything is
2 finalized and everything and so forth like that. Again, tonight's just a
3 recommendation and design can be taken care of later as well.
4
5 Scholz: Okay. I haven't heard from anyone in the public. Sir, do you want to
6 comment on this? No? Okay. I'll close for public comment then and I'll
7 entertain a motion to approve.
8
9 Crane: So moved.
10
11 Scholz: Okay, Commissioner Crane moved....
12
13 Crane: Z2825....
14
15 Scholz: With...would you read the conditions, too, please?
16
17 Crane: It will take a moment.
18
19 Scholz: They are on page 10, I think....or page 9.
20
21 Crane: Page 9....
22
23 Scholz: It's under Staff Recommendation.
24
25 Crane: There it is....with the conditions that: the property owner will be required
26 to replat the subject property to dissolve all underlying lot lines. The replat
27 must be filed prior to the issuance of a certificate of occupancy for any
28 new construction. And, two, the property owner will be required to install a
29 six (6) foot opaque wall along the northern property line adjacent to the R-
30 1a zoned properties.
31
32 Scholz: All right, and is there a second to this?
33
34 Beard: Second.
35
36 Scholz: Okay, Commissioner Beard seconds. I'll call the role. Commissioner
37 Shipley. Commissioner Shipley?
38
39 Shipley: *(inaudible)* I'll be last.
40
41 Scholz: Commissioner Crane.
42
43 Crane: I can't believe Mr. Shipley wants to hear what all the other votes are. (all
44 laughing)
45
46 Scholz: Okay, Commissioner Crane.

- 1
2 Crane: I vote aye, based on findings, discussion and site visit.
3
4 Scholz: Commissioner Stowe.
5
6 Stowe: Aye, based on findings, discussion and site visit.
7
8 Scholz: Commissioner Evans.
9
10 Evans: Aye, findings, discussion.
11
12 Scholz: Commissioner Bustos.
13
14 Bustos: Aye, findings, discussion.
15
16 Scholz: Commissioner Beard.
17
18 Beard: Aye, findings, discussion and site visit.
19
20 Scholz: And the Chair votes aye, findings, discussion. Commissioner Shipley?
21
22 Shipley: I vote nay because of the fact that I don't think this design is appropriate
23 for this piece of property and I don't think it's good for the veterans to have
24 to walk too far and I think that if we turn our back on this when we do
25 these kinds of things we're doing disservice to the vein. We need to do
26 this right the first time and spend the dollars correctly. We don't need to
27 spend our money because you've got a time frame and waste money to
28 make a bad decision and that's why I'm voting nay.
29
30 Scholz: Thank you, Commissioner Shipley. So it passes 6 to 1.

31 32 VII. PUBLIC PARTICIPATION

- 33
34 Scholz: All right, if there's no other public participation...
35

36 VIII. STAFF ANNOUNCEMENTS

- 37
38 Scholz: Staff announcements? You want to make a staff announcement, Ms.
39 Rodriguez?
40

- 41 1. Work Session on February 8, 2011 at 6pm in Council Chambers
42

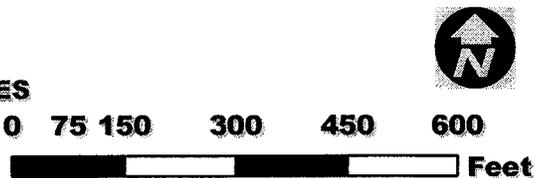

- 43 Rodriguez: Mr. Chairman, are we going to do election of officers in a....?
44

- 45 Scholz: Ah, yes we have! Sorry about that. Since I had this out of order on my
46 agenda we do have to do that. We have to Election of Officers and we
