Grant Terms and Conditions (continued from Section 10 of Award)

The DONA ANA COUNTY has been awarded \$472,500.00 shall be used to support activities essential to the ability of states, territories, and urban areas to prepare for, prevent, and respond to terrorist attacks and other all-hazards events.

The scope of work is as follows:

- Project 1: Remote CBRNE Monitoring Equipment and Support -- \$200,000.00
- Project 2: Strengthen CBRNE Detection/Response/Decontamination -- \$80,000.00
- Project 3: Las Cruces SWAT Operations Vehicle -- \$180,000.00
- Project 4: MANADATORY EXERCISE -- \$12,500.00

The performance period of this grant award is January 1, 2011 through January 1, 2012. DONA ANA COUNTY cannot sub-grant all or any part of this award to any other entity or organization. All awards require confirmation within the first reporting quarter that expenditures in the budget category toward projects will be made, or DHSEM will execute de-obligation of the funds.

(A) Changes to Award: All change requests must be submitted in writing, or electronically to the DHSEM grant specialist, accompanied by a justification narrative and budget/spending plan, for review and approval. Changes must be consistent with the scope of the project and grant guidelines. Requests for changes will be considered only if the reporting requirements are current, and if terms and conditions have been met at the time the request. Changes in the programmatic activities, or purpose of the project, changes in key persons specified on the grant award, contractual services for activities central to the purposes of the award, requests for additional funding, change in project site, or release of special conditions will result in an amendment to this award.

(B) NEPA/EHP Compliance; The recipient must provide information to NMDHSEM to assist with the legally-required environmental planning and historic preservation (EHP) review and to ensure compliance with the applicable EHP laws and Executive Orders (EO). These EHP requirements include but are not limited to National Environmental Policy Act, National Historic Preservation Act, Endangered Species Act, E 11988 Floodplain Management, EO 11990 Protection of Wetlands, and EO 12898 Environmental Justice. The recipient must comply with all Federal, State and Local EHP requirements and obtain applicable permits and clearances.

Recipients shall not undertake any activity from the project that would result in ground disturbance, facility modification, or relates to the use of sonar equipment without the prior approval of FEMA. These include but are not limited to communications towers, physical security enhancements involving ground disturbance, new construction, and modifications to buildings that are 50 years old or older. Recipient must comply with all mitigation or treatment measures required for the project as the result of FEMA's EHP review.

Any change to an approved project description will require re-evaluation for compliance with EHP requirements before the project can proceed. If ground disturbing activities occur during project implementation, the recipient must ensure monitoring of ground disturbance and if any potential archeological resources are discovered, the recipient will immediately cease construction in that area and notify FEMA and the appropriate State Historic Preservation Office. Initiation of these activities prior to completion of FEMA's EHP review will result in a non-compliance finding and may not be eligible for grant funding.
