COUNCIL DISTRICT: ALL		
<u>Drafter/Staff Contact:</u> Gary Skelton	<u>Department/Section:</u> Transportation/ Street and Traffic Operations	<u>Phone:</u> 541-2561
<u>City Manager Signature:</u>		

BACKGROUND / KEY ISSUES / CONTRIBUTING FACTORS:

The City of Las Cruces has approximately 550 lane miles of paved roadway within the City limits. Approximately 280 miles of those paved roads have painted striping. The Street and Traffic Operations (STO) Section of the Transportation Department maintains the roadway striping throughout the City. The road striping is utilized to provide safer direction and information for motorists, bicyclists and pedestrians. The STO Section's goal is to restripe all streets twice a year and restripe as many arterial roadways a third time as funding allows.

If road striping is not regularly maintained, existing striping could become worn and less visible which could lead to unsafe conditions on City roadways. Additionally, changes may be needed to existing striping to provide guidance improvements for safety and information.

The State of New Mexico has issued Pricing Agreement Number 40-805-13-10335 to San Bar Construction Corporation of Albuquerque, New Mexico for road striping maintenance. The Transportation Department has reviewed and requests to utilize this agreement. A list of streets in need of striping maintenance is attached as support information.

(Continue on additional sheets as required)

The Transportation Department recommends that City Council award a contract to San Bar Construction Corporation for striping maintenance in the amount of \$215,896.70 plus \$17,946.41 for New Mexico Gross Receipts Tax for a total project cost in the amount of \$233,843.11.
