4

5 Mayor Miyagishima said no.

6

7 Bob Butler asked where are we at as far as the company is concerned?

8

10 Electric on providing some type of solar equipment.

11

12 Bob Butler asked what is the status of the Citizens Police Review Board?

13

14 Mayor Miyagishima said we had a work session a few weeks ago regarding that issue and we are  
15 probably going to be moving in the direction of a type of Police Auditor. We will be having another  
16 meeting regarding that issue probably next month.

17

18 Bob Butler said I would like to ask each one of our Councillors, what is their opinion on electro

8 Program (HOME) Grant Agreement Between Mesilla Valley Habitat for Humanity  
9 and the City of Las Cruces for the Acquisition of Property for the Development and  
10 Construction of an Owner-Occupied, Single-Family Affordable Housing Dwelling  
11 Unit.

21

22

23

24 **VII. RESOLUTIONS AND/OR ORDINANCES FOR DISCUSSION**

25

26 **(6)**            **Resolution No. 10-107:** A Resolution to Support the Organ Mountains - Desert  
27 Peaks Wilderness Act and to Encourage Support From Members of the United States  
28 Congress and the New Mexico Congressional Delegation.

29

30 Councillor Connor Moved to Adopt Resolution No. 10-107 and Councillor Silva Seconded the  
31 motion.

32

33

34

35 Dara Parker, from Senator Bingaman's office gave a presentation and said this was submitted a few  
36 weeks ago and it is really going to help protect our quality of life. The hearing for this bill will be  
37 this Thursday but I will keep you up to date on its status.

38

39 Mayor Miyagishima said I am very impressed with the changes that were put forth on this issue.

40

41 Councillor Archuleta asked will Tortugas still be able to use A Mountain for their pilgrimage?

42

43 Dara Parker said yes.

1 Councillor Thomas read a supporting email and said I have received a lot of emails in support of this  
2 bill.

3

4 Jerry Schickedanz, Member of the Public said I have been a resident here since 1968 and I am  
5 opposed to this bill as it is written. I have a petition with about 700 signatures of people that are also  
6 opposed to this bill. We aren't opposed to protecting wild lands in Dona Ana County but we think  
7 there are other ways to do it. When this becomes wilderness, the Border Patrol won't have access  
8 to these areas and the roads that hunters currently use won't be open to them anymore.

9

10 Doug Lee Williams, Member of the Public said I am a public lands rancher and I was never allowed  
11 to present my case at the stakeholders meeting that was held three years ago. It has become much  
12 more limiting for me to manage my ranch. I don't have access to a lot of the roads in my area; now  
13 I only have access to two dirt tanks on my ranch. I can only reach my other dirt tanks by horseback  
14 and all my tanks have to be maintained every two to three days.

15

16 Mayor Miyagishima said you should contact the Representative's or the Senator's office and ask to  
17 have them address the BLM regarding your access to these areas.

18

19 Dr. Earl Nelson (?), Member of the Public said I am in favor of this item and the Dona Ana County  
20 has already approved it.

21

22 Kathleen Strayley, Member of the Public said I've lived in Las Cruces since 1996 and once the  
23 wilderness areas are gone, they are gone forever.

24

25 Joel Huffman, Member of the Public said I have been hiking around the Organ Mountains all my life  
26 and I support this resolution.

27

28 Jeff Steinborn, Representative said this Wilderness Act protects Ranchers and the wilderness areas.

29

30 Steve Ludington, Member of the Public said I grew up hunting and backpacking in the Organ  
31 Mountains.

32

33 Sandford (?), Member of the Public said I am the chairman for the Southwest Consolidated  
34 Sportsman and we unanimously support this proposal.

35

36 David Griffin, Member of the Public said I am the President of the Audubon Society and we fully  
37 support the Organ Mountain Wilderness Act.

38

39 Rob Richardson, Senior Vice President of Bohannon Huston said we need to focus on the flood  
40 control issues with the BLM land. They don't want to get into the business of owning and operating  
41 facilities so they won't grant right of ways for a flood control structure.

42

43 Councillor Jones said they might be concerned with the liability issue.

1

2 Councillor Thomas said this could be the opportunity to put some kind of language in this to address  
3 that issue.

4

5 Dara Parker said we have had discussions with a number of agencies, including the Dona Ana  
6 County Flood Manager, EBID and the BLM regarding this issue and we are currently working on  
7 it.

8

9 Angel Montoya, Member of the Public said I urge all of you to support this issue.

10

11 Virginia Romero, Member of the Public said it is our responsibility to protect the land.

12

13 Sylvia Byrnes, Member of the Public said we bought our property because of the beautiful views and  
14 this land is a gift to us and we need to take care of it.

15

16 Bonnie Burn, Member of the Public said I am the President of the League of Women Voters and I  
17 urge you to support this legislation.

18

19 Amanda Cruz, Member of the Public said I am with the Hispano Chamber of Commerce and we  
20 need to protect our lands.

21

22 John Moen, Member of the Public said our biggest concern is the area west of the Potrillo Mountains  
23 and we proposed having a loop road in this area but they weren't interested in allowing it. We have  
24 been compromising with them for roads in this roadless area and I believe we have hacked out a  
25 really good proposal. Most sportsmen support this as it is now.

26

27 Councillor Connor asked when this is enacted; will there be wilderness study areas?

28

29 Dara Parker said not in Dona Ana County but there will be areas for others parts of New Mexico.

30

31 Councillor Connor said this will be heard on Thursday, what kind of time frame will there be for this  
32 item?

33

34 Dara Parker said the hearing is moving along quickly but a vote is unlike to come up for about  
35 another year.

36

37 Councillor Jones said there has been a tremendous amount of work on this project and Councillor  
38 Connor should be given some credit on this because I was with her when we visited Washington in  
39 2006 and she handled that meeting very well. She has also continued to work on this item and kept  
40 it moving forward.

41

42 I do have some concerns with the flooding control issues on the East Mesa and I would like to add  
43 an amendment to this item.

1

2

-----

3

4 Councillor Jones Moved to Amend Resolution No. 10-107 to include under Item 2 on page 6 that  
5 prior to final adoption, we urge that our congressional delegation considers the need for limited land  
6 use accommodations where appropriate for the purpose of storm control projects for the protection  
7 of communities and Councillor Connor Seconded the motion.

8

9

-----

10

11 Councillor Jones said this motion is broad and not limiting because my goal and my job is to protect  
12 Las Cruces regarding the storm control issues on the East Mesa.

13

14 Mayor Miyagishima said I am concerned with putting that in this resolution and I would suggest that  
15 we bring back a sole resolution that we will send to the BLM to address the flood control issues.

16

17 Councillor Jones said by that time, the BLM's hands will be tied and I think we need to send the  
18 message that flood control issues are important to us.

19

20 Mayor Miyagishima said I still think we need to address those issues with the BLM.

21

22 Dara Parker said we are continuing our dialog with the BLM and we are still considering all these  
23 issues.

24

25 Jeff Steinborn said I think this amendment isn't necessary and the language isn't appropriate for this  
26 resolution.

27

28 Jim Harbison, Member of the Public said this resolution is a representation of our endorsement for  
29 the proposed legislation and I think this Council should include other things that they want to be  
30 considered with this resolution.

31

32 Councillor Thomas said we have had conversations with the BLM regarding the flood control issues.

33

34 Robert Garza, Assistant City Manager said the City has done numerous projects over the years on  
35 BLM property and in some of cases, they just deed the property to the City but those areas haven't  
36 been in the wilderness areas. The Army Corp of Engineers could become the owners of a flood  
37 control facility on federal property within the BLM so a partnership with the Army Corp would be  
38 a key in getting there.

39

40

-----

41

42 Mayor Miyagishima called for the roll on the Motion to Amend Resolution No. 10-107 to include  
43 under Item 2 on page 6 that prior to final adoption, we urge that our congressional delegation

1 considers the need for limited land use accommodations where appropriate for the purpose of storm  
2 control projects for the protection of communities and it FAILED. 3-3-1 Councillor Silva, Councillor  
3 Connor and Councillor Jones voted Aye. Councillor Thomas, Councillor Archuleta and Mayor  
4 Miyagishima voted Nay. Councillor Small Abstained.

5

6

-----

7

8 Mayor Miyagishima said I just don't see any need to include any additional language to this  
9 resolution.

10

11 Councillor Thomas said we could just add direction to staff to move forward with the BLM.

12

13 Harry (Pete) Connelly, Deputy City Attorney said the amendment failed so the only thing you have  
14 before you is the resolution.

15

16 Councillor Archuleta said I was part of a meeting with the Zia Pueblo Indians in May and they gave  
17 us a tour of a portion of the Jemez Mountains. The guide said the white man should be concerned  
18 with protecting thousands of acres for our future. I was born and raised here and I want the Organ  
19 Mountains to remain just as they are.

20

21 Councillor Silva said I think everyone wants to preserve our Organ Mountains.

22

23

-----

24

25 Councillor Silva Moved to Call for the Question and Councillor Jones Seconded the motion.

32 Commission In Its Entirety.**

33

34 Councillor Connor Moved to Adopt Council Bill No. 10-008; Ordinance No. 2537 and Councillor  
35 Jones Seconded the motion.

36

37

38

39 Udell Vigil, PIO Director gave a verbal presentation and said this ordinance would do away with the  
40 Cable TV Compliance Commission. The Commission doesn't serve any purpose any more and there  
41 aren't any members appointed to serve on it. The PIO office handles all cable related matters with  
42 Comcast.

43

1 Mayor Miyagishima said the PIO Office has a great staff.

21 David Weir, Community Development Director gave a presentation and said this is for a 30 year  
22 lease of 86 acres in the West Mesa Industrial Park to Enxco Development Corporation which is a  
23 green energy company.

24

25 Rob Hursh, Enxco gave a verbal presentation and said we are a renewable energy company in both  
26 wind and solar energy. We are investing in New Mexico and working with El Paso Electric as well  
27 as other companies to bring this technology forward; we do have a lot of experience in this field.

28

29 Councillor Connor said my husband works with El Paso Electric but I don't see a conflict with this  
30 because they are speaking with other companies as well.

31

32 The minutes from the West Mesa Strategic Planning Committee weren't included in our packet and  
33 this presentation was given to them. In the future, we need to have those minutes included in our  
34 packets.

35

36 David Weir said that was an oversight and we will make sure to include those in our future packets.

37

38 Mayor Miyagishima asked if the City were to enter into an agreement in the future with your  
39 company for the generation of power in the West Mesa area, would it be at a reduced cost?

40

41 Rob Hursh said the grid connected project would be serving El Paso Electric's load.

42

1 Mayor Miyagishima asked could the City enter into a partnership to reuse some of our additional  
2 land?

15 **X.    GENERAL DISCUSSION**

16  
17  
18

1.    **Mayor**

19 Mayor Miyagishima said I was told that our area is very hot but there is a lot of water underneath  
20 which is hot and very salty. They said if we could find a company to take the Geothermal power that  
21 is underneath there it could be used as a means of power. Mr. Hursh, can your company do anything  
22 like that and if so, then can that power be given back to the grid and use it for lower rates?

23

24 Ron Hursh said yes, of course. Geothermal is great opportunity for Las Cruces and it will  
25 increasingly become a viable economic and energy source.

26

27 Mayor Miyagishima said there was a Las Cruces Police Officer that was hurt on their motorcycle and  
28 I wanted to get an update on his status.

29

30 Chief Romero said he was released from the hospital last week.

31

32 Mayor Miyagishima said I still see a lot of the older motorcycles still on the road.

33

34 Chief Romero said they are being phased out.

35

36

37

2.    **City Council**

38

39  
40 Councillor Archuleta said I attended the NMFA meeting that was hosted by the University and they  
41 made it very clear that there isn't any Capital Outlay money but they did ask for our list of priorities  
42 which we submitted to them.

43

- 1 I received an email from a resident in Encantada Park and he had some complaints with the Whole  
2 Enchilada Fiesta and all the noise that was created by the music. I will be meeting with the Parks  
3 Director to discuss how we can address some of these issues.  
4
- 5 There was an article in yesterday's paper regarding sub-contractors municipal projects and how the  
6 City still isn't working with them. That is something that we need to look into and address.  
7
- 8 Councillor Connor said I don't think they were talking about City Councillors, it was at the staff  
9 level.  
10
- 11 Councillor Archuleta said even if it was with the staff, we need to know about it and address it.  
12
- 13 Terrence Moore, City Manager said we can meet with them on a one on one basis to address it.  
14
- 15 Councillor Archuleta asked how do we get the word out to those individuals who are afraid to speak  
16 up on some of these issues?  
17
- 18 Mayor Miyagishima said we can re-activate the Business Advisory Group to give everyone the  
19 opportunity to meet and discuss issues or concerns they need to have addressed.  
20
- 21 I received a call over the weekend regarding the lack of ADA port-a-potties at the Whole Enchilada  
22 Fiesta.  
23
- 24 Councillor Archuleta said I have submitted that compliant to the TWEF board.  
25
- 26 Councillor Connor said I did see a number of ADA restrooms at the TWEF.  
27
- 28 Brian Denmark, Facilities Director said there were numerous ADA facilities available.  
29
- 30 Councillor Thomas said we had a District 6 meeting last week and if anyone would like to be put on  
31 the list for a copy of the minutes from our meetings then just email me at my city address and I will

- 34 There was a meeting last week with the Federal Rail Administration and there was a great turnout.  
35 We are looking for money to have a feasibility study done and they gave us some guidelines on how  
36 to get the study done correctly.  
37
- 38 Councillor Jones said we have been receiving emails regarding the traffic problems in the Mesa

40 regarding Oate High School.  
41

1

2 I met with Mr. Garza to discuss several issues including the local purchasing issue and I think we  
3 should have an update given on that issue at our next meeting.

4

5 Councillor Small said I would like to thank everyone for attending our District meeting at the  
6 Munson Center.

7

8 We appreciate the clean up of the weeds that was done in the Stewart Street area.

9

10 There is a new subdivision that is going in and we're down to the last few telephone poles that need  
11 to be removed so we will probably be in contact with them to make sure it is done.

12

13 Councillor Connor said about two weeks ago in my neighborhood there was a fire about ten houses  
14 down from mine and I called 911 when I first noticed that there was a fire and it only took the fire  
15 truck 8 minutes to get there which is well under the national response time requirement.

16

21 moving of the bookstore.

22

23 I was asked about the stripping on the north end of Triviz and the new bike path, is there going to  
24 be signage on the actual pathway to state that bicycles should not be on the walking pathway?

25

26 Mike Johnson said we are working out the usage allowance on the path and we will have to think  
27 about the wording of any signage.

28

29 Councillor Connor said the complaint I got was from a gentleman who was walking on the pathway  
30 and a bike went past him going very fast. He doesn't feel it is safe to allow bikes on the walkway.

31

32 Me and my husband are going to be sponsoring a student from Zia Middle School to attend the US

34 excelled in Math and Science but don't have the financial resources to attend this camp.

35

36 Councillor Silva said Campo Street is going to be reduced to three lanes due to the new Federal  
37 Courthouse and I wanted to know if there was going to be any bike lanes?

38

39 Mike Johnson said no, it isn't allowed because it doesn't have the necessary width for a bike lane.

40

41 Councillor Silva said I would encourage the residents to be patient with the movie crews regarding  
42 the closure of Highway 70 because this will be adding to our economy.
